**Balance Computation** – The daily balance method is used to calculate interest on your account. This method applies the current rate to the principal balance in the account each day.

**Rate Information** – For interest bearing accounts, at our discretion, we may change the interest rate on the account. Your interest rate and annual percentage yield may change at any time. Interest begins to accrue on the business day you deposit non-cash items (for example, checks). Interest will be compounded monthly and will be credited to your account monthly. Current rates are posted in the lobby of the bank and at [MayvilleStateBank.com](http://MayvilleStateBank.com)

**Bounce Protection Limitations** – Bounce Protection is a non-contractual courtesy which is available to accounts in good standing for personal, household or business use. Mayville State Bank reserves the right to limit participation to one account per household and to discontinue this service without prior notice.

**Overdraft Protection** – A fee of \$15.00 is due annually in order to continue your line of credit. A transaction fee of \$1.00 will be charged for each advance you make in addition to an interest charge for the period of overdraft.
